MESSAGE: Please do not Enact the  
Proposed regulation to ban  
Smoking in work places  
(Docket # H-122) Since  
most restaurant & bar owners  
could not afford the cost  
of compliance, this regulation  
would prevent me from  
exercising my rights to  
Smoke in any restaurant or  
bar, Accomodation of non-  
Smokers rights can be  
achieved by other means.  
I am a tax-payer too &  
have worked in chemicals for  
33 years. Why take  
my rights when chemicals is  
worse than cigarettes?  
MRMS 0275 PART  
no one says anything about that.
